NOTA:

CATEGORY C 7 and C18 – ITEMS OTHER THAN COMPLETE ENGINE OR COMPLETE APU

Under the responsibility of the Repair Center:

This list specifies items other than the engine, which essentially consist of equipment or accessories which are maintained by the Accessories Repair Unit and CERPC under the cover of the Part 145 approval.

Under the responsibility of the Maintenance Center:

During an operation on the customer's premises or in a Maintenance Center, the Field Technicians/Representatives are authorized to issue an EASA Form 1 for all components, accessories and equipment that have been removed in satisfactory condition and returned to service.

Any isolated module, accessory or part from the engine variants listed can be released after inspection or maintenance intervention as per the listed Maintenance Manual or MTI tasks, as well as technical instruction (TI) linked to SB, when applicable at Maintenance Center Level.

CATEGORIE C 7 et C18 – ELEMENTS AUTRES QUE LE MOTEUR OU L'APU COMPLET

Sous la responsabilité du Centre de Réparation :

Cette liste précise les éléments autres que le moteur, elle est constituée des équipements ou accessoires dont l'entretien est réalisé par l'Unité Réparation Accessoires et CERPC sous couvert de l'agrément Partie 145.

Sous la responsabilité du Centre de Maintenance :

Les Field Technicians/Representative lors d'une intervention chez le client ou en Centre de Maintenance sont autorisés à émettre une EASA Form 1 pour tous les organes, accessoires et équipements déposés dans un état satisfaisant et remis en service.

Tout module, accessoire ou pièce appartenant aux variantes de moteur énumérées peut être libéré après inspection ou intervention de maintenance conformément au Manuel de Maintenance ou aux ITM, ainsi que les instructions techniques (IT) liées à SB, si applicable en Centre de Maintenance.

FOR SUPPORT FRANCE ONLY UNDER EASA/FAA/TCAC:

If a reference is not in the capability list, it can be released only if:

- the reference is in the IPC of the engine
- the reference is part of an assembly whose reference is in the capability list
- the technical data of the reference is the same that the technical data of the assembly it is part of
- conditions to be integrated in a capability list are respected (iaw **006910** 09DQ028004)

Si une référence est absente de la capability list, elle peut être libérée si et seulement si:

- *la référence est inscrite dans le TCI du moteur concerné*
- *la référence est un sous-ensemble d'un ensemble supérieur qui fait partie de la capability list*
- *le référentiel d'entretien du sous-ensemble doit être le même que celui de l'ensemble supérieur*
- *les conditions d'intégration dans la capability sont respectées (selon 006910 09DQ028004)*
